Thanks Mary we should be able to meet this deadline on responding to these comments. I believe we also have almost all of the additional data that was requested but not available when this was first sent forward. Need to run that down tomorrow.

**Subject:** DEADLINE - COB Tuesday - May 7 - review PFAS QFRs compilation with OW edits/comments/questions

Thanks everybody for drafting responses to the March 28 SEPW PFAS hearing QFRs. The attached document is a compilation of all of the edits, inserts and comments. Thanks to OW who put the pieces together and internally reviewed the package for consistency and responsiveness—you'll see their edits and questions in the RLSO comments. This is your opportunity to see everyone's responses and provide feedback. Please review the responses, edits and comments, and respond where requested. After we complete internal EPA review, we'll send the package to OMB for their review.

Three requests to keep the package moving:

- Please edit and add comments with track changes ON in the "no markup" view
- Please respond to all comments in the margins with a reply
- Please respond by the deadline of COB Tues, May 7

Thanks again for all the work so far and please let me know if any questions. Best,  
Sven
